To the Hiring Manager

Subject: Application for PFE Internship – Enterprise Portal Development and Backoffice Integration

Dear Hiring Manager,

Currently a final-year engineering student at TEK-UP University, I am seeking a 6-month PFE internship starting in early 2026. I am particularly interested in your project focused on developing a complete enterprise portal with real-time data synchronization and multi-backoffice integrations.

My academic background and hands-on experience in full-stack development allow me to confidently contribute to this project. I have practical experience with Angular, and Spring Boot, as well as an understanding of enterprise integrations (SAP, Oracle). I am also passionate about building performant, secure, and user-centric platforms that optimize data flow and decision-making.

Motivated, adaptable, and detail-oriented, I am eager to collaborate within your team to design scalable solutions and enhance the portal's data-driven features. This internship represents a great opportunity for me to apply my skills in a challenging and professional environment.

Thank you for your time and consideration. I would be delighted to discuss my motivation further during an interview.

Sincerely,

Amir Ouni
